

Learn from the Practitioners

During 30 years of working in Leadership, Management and Organisational Development we have recognised the enormous benefit peer learning has had on our participants as they shared real workplace situations and practical solutions with like-minded professionals.

Over the course of this Program, we will share:

- Our biggest achievement
- What did we learn from these achievements?
- Our biggest challenges for the next 12 months
- What are our collective thoughts, ideas and suggestions to overcome these challenges?

Participants will receive a complimentary copy of Robert's book, ***Leadership at Work-Letting the Apes Go Free*** and will have a takeaway plan to bring about positive results in their organisations.

Expression of Interest are encouraged to secure your spot on the next Program.

*Limit to 10 participants
